**Home Screen Icons**

Need home screen icon images.

**57x57/114x114** for iOS native/web apps.

**36x36 (LDPI), 48x48 (MDPI), 72x72 (HDPI), 96x96 (XXHDPI), 144x144 (XXHDPI), 512x512 (Android Market)** for native Android.

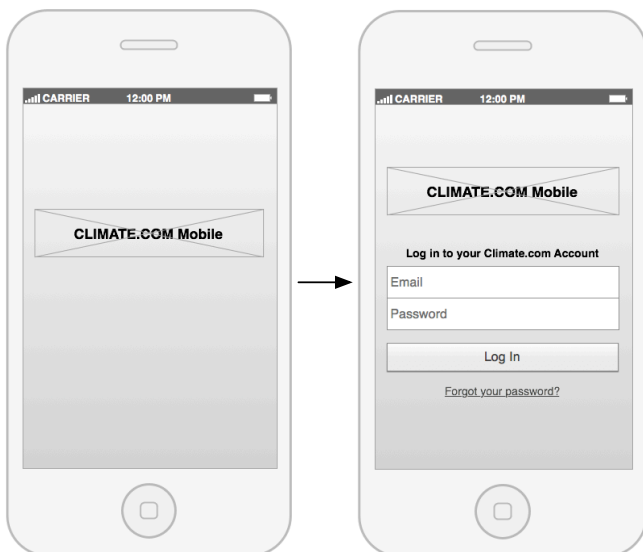

**Logging In**

Loading alert popup shown while loading (see next page). When validated, user location permission sought via OS (if not already granted).

Log in error messages appear as OS alert popup (see next page).

**Forgot your password?**

Opens OS alert popups (see next page).

**Splash Screen to Login Page****Splash to Login**

The splash screen and login page are combined.

On application launch, show just the background image and the logo.

After two seconds, animate-move the logo upwards and fade in the rest of the interface elements.

Swipe This Area to Go Between Tutorial Pages

Close the tutorial

**Fields Menu Button**

In selected state while menu is being opened (see prototype).

**Search**

Tapping puts search bar/area into focus (see prototype and below).

**List of Fields**

Fields appear in alphabetical order.

When a field is tapped, user goes to the detail-level of that field under the current tool (see prototype for animation/selected states).

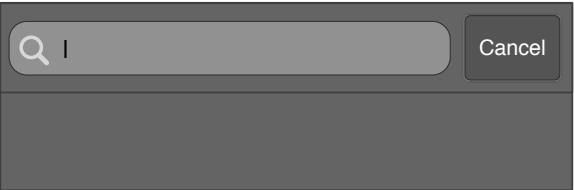

Swiping vertically scrolls through list.

*In the prototype, 'Airport', 'Dads Farm', and 'Homestead' are the only selectable fields.*

**Hiding the Menu**

Tapping non-menu area, selecting a field, swiping left quickly anywhere, or dragging and releasing with most of the menu hidden hides the menu (see prototype).

**When Search Box in Focus**

**Hiding Search**

Tapping the cancel button or tapping on empty space where results appear hides the search box/area (see prototype).

**When Typing in Search Box**

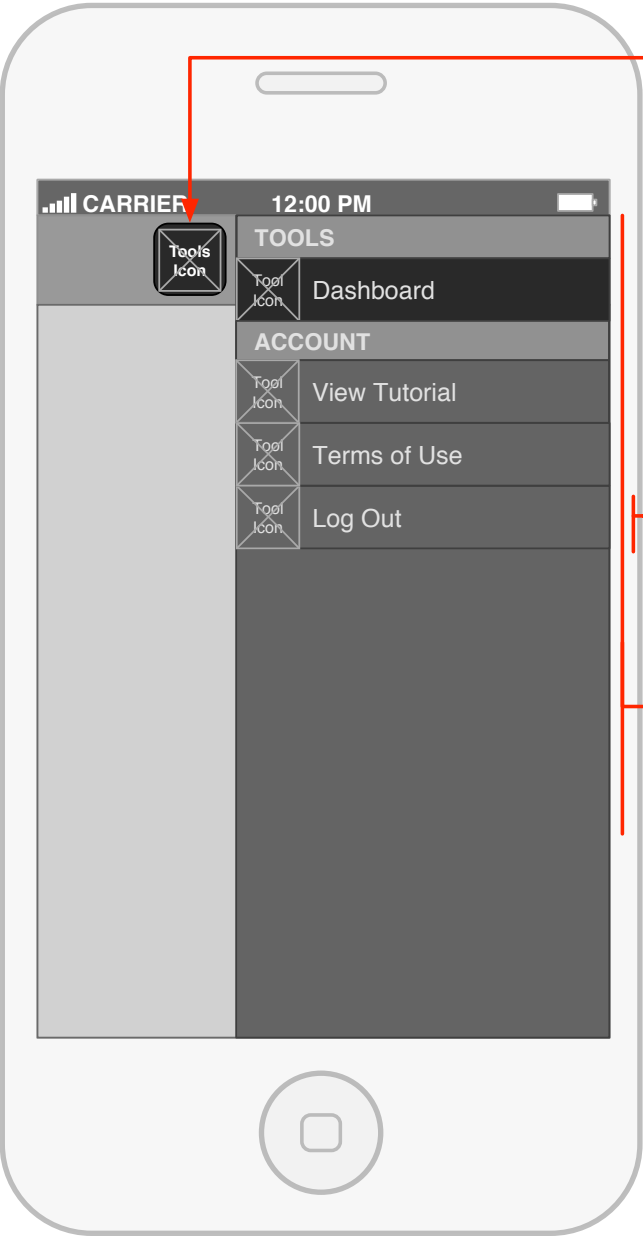

**Clear Text Button**

Appears when text is typed in and clears text if tapped (see prototype).

**Search Results**

Search results appear as characters are typed (see prototype). A field result can be tapped to go to the detail-level of that field under the current tool (see prototype for animations/selected states from both "Overview" and "Details" pages).

**Tools Menu Button**

In selected state while menu is being opened (see prototype).

**Currently Selected**

Current tool is in selected state. "Dashboard" is selected by default.

**Log Out**

Confirmation prompt is shown when tapped (see below). Users log out here and are returned to the log in page.

**List of Tools**

When a tool is selected, the top-level page is changed to the selected tool, and the Tools Menu hides (see prototype for animations/selected states)

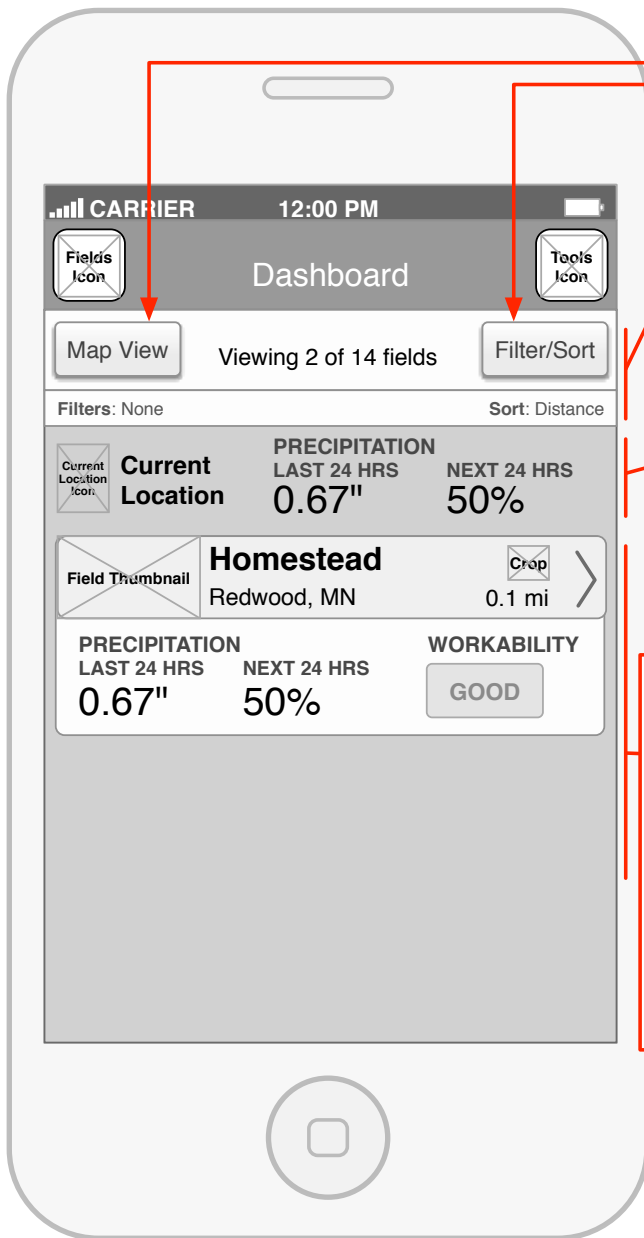

Swiping vertically scrolls through list. Section title becomes fixed to top until "pushed out" by another section title (see prototype).

**Hiding the Menu**

Tapping non-menu area, selecting a field, swiping left quickly anywhere, or dragging and releasing with most of the menu hidden hides the menu (see prototype).

**Log Out Confirmation**

**Map View & Filter/Sort Buttons**  
Goes to corresponding pages.

### Viewing X of X fields

Displays # of fields after filters applied out of total user fields.

### Applied Filters/Sort Bar

Displays current filters and sort; different filters are separated by commas; if total text is too long, cut off with ellipses (...).

### Current Location

Displays current location's accumulated precipitation for past 24 hours, and precipitation chance for next 12 hours. Not shown if location permissions not granted.

### Field Summary Cards

Displays field thumbnail, name, county/state, crop icon, and calculated distance from user (if location permissions is granted).

Also displays accumulated precipitation for past 24 hours, precipitation chance for next 24 hours, and a "workability" rating for today (see below).

When tapped, user goes to Dashboard's detail-level of that field (see prototype for animations, selected, and loading states).

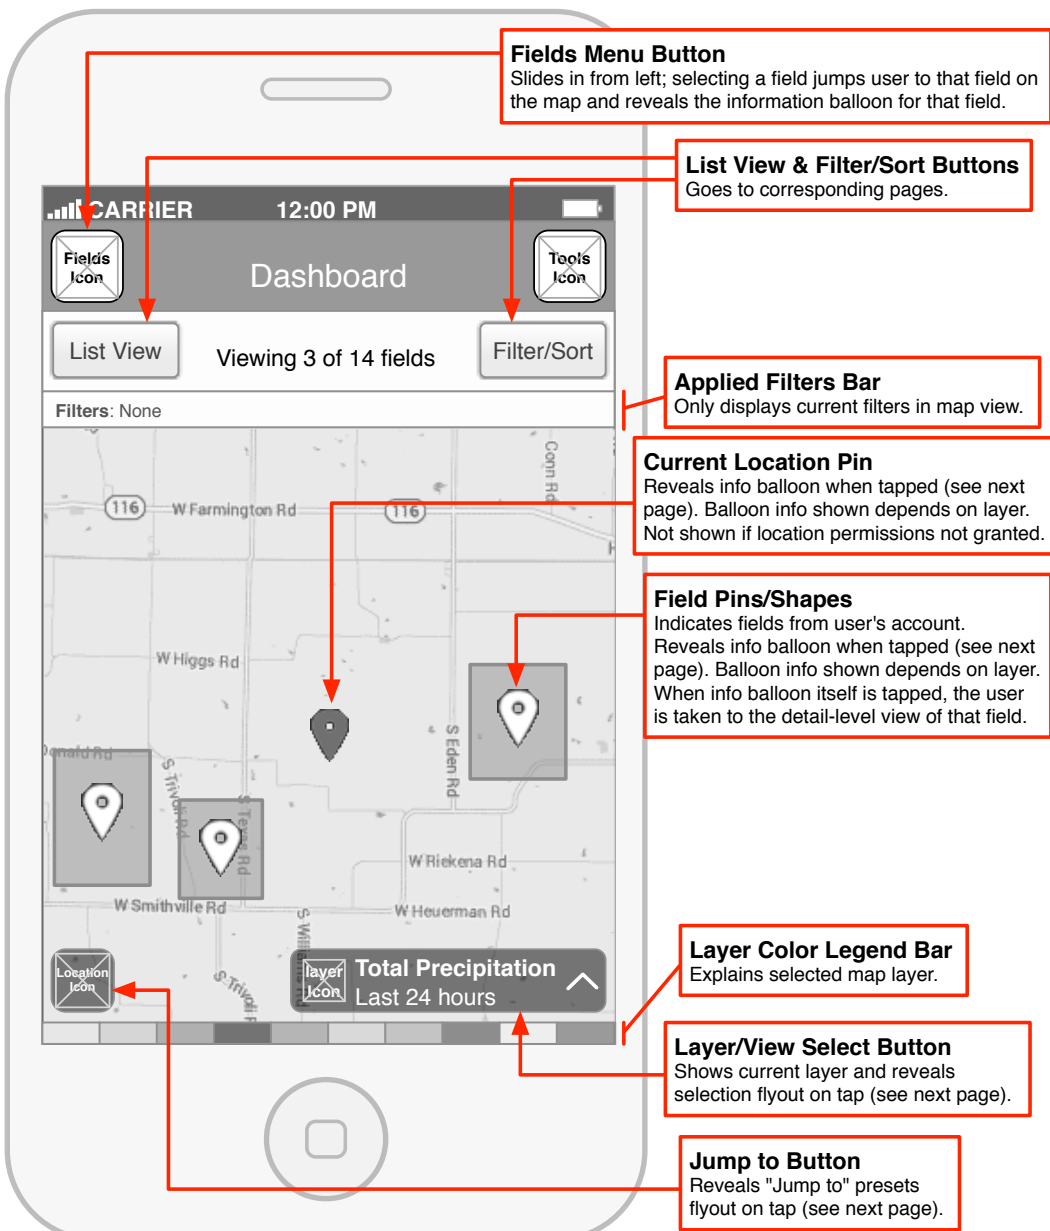

*In the prototype, 'Homestead', 'Dads Farm', and 'Airport' are the only selectable fields.*

## Workability Statuses

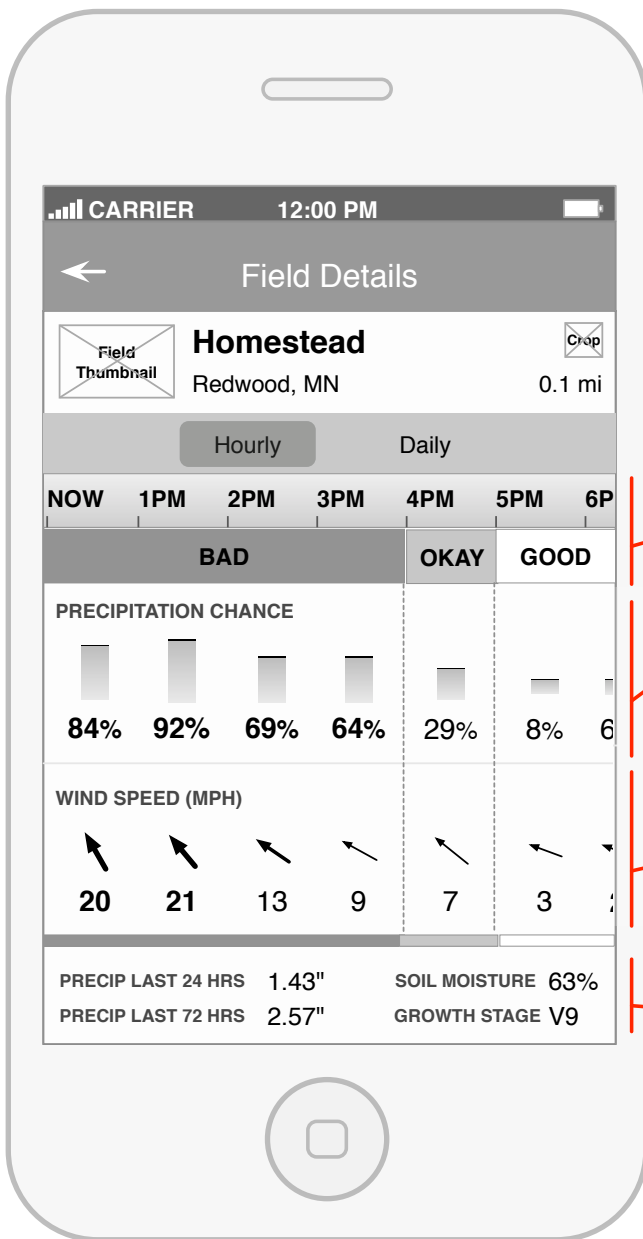

GOOD

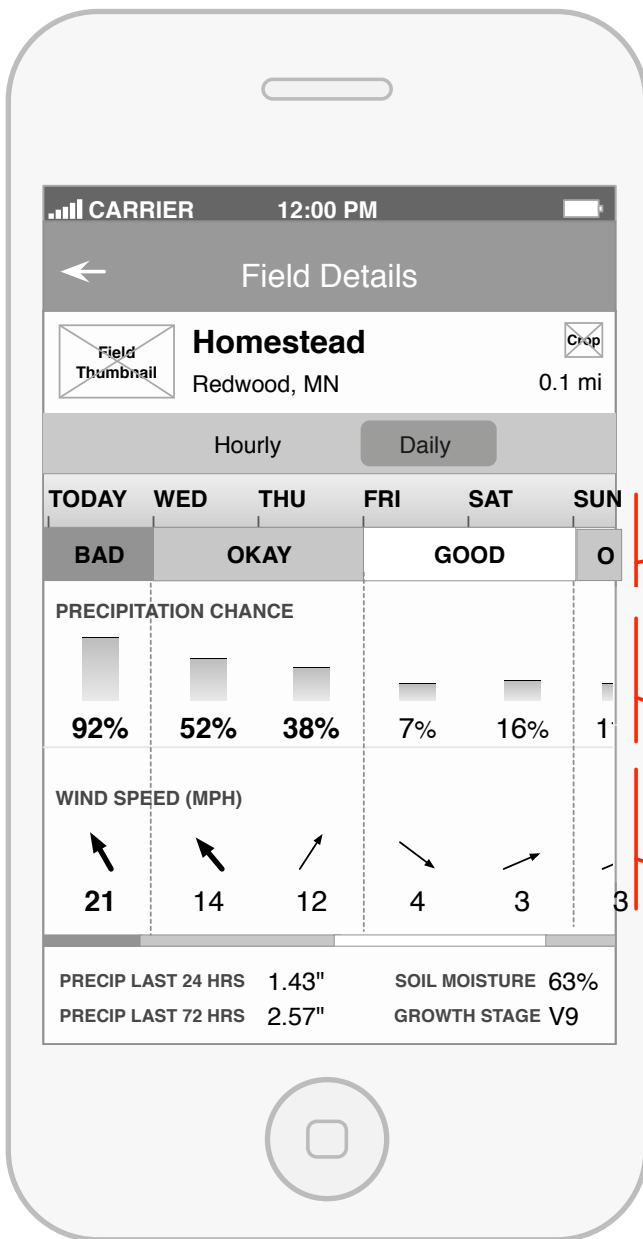

OKAY

BAD

**Workability Rating Timeline**

Displays workability rating for today and the next ten days.

**Conditions/Precip Chance**

Displayed for each day.

*Numbers become red when at least 30% for at least 0.1" of precip.*

**Wind Direction/Speed**

Displayed for each day.

*Arrows/numbers become red when at least 20 mph.*
