

## [1.0 to 1.4] ANDROID Sign Up and Log In Pages

**1**

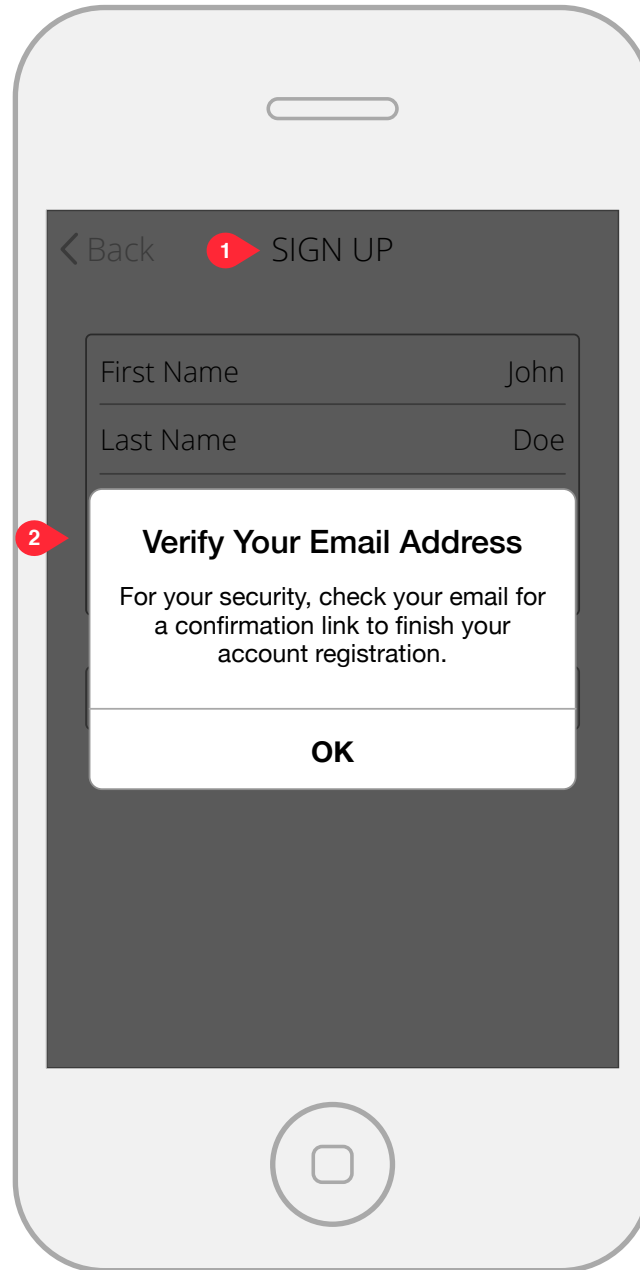

### Titles Stay Center Aligned

Because the sign up pages are not typical Android interface screens and are mostly symmetrical, the titles of these pages should stay centered.

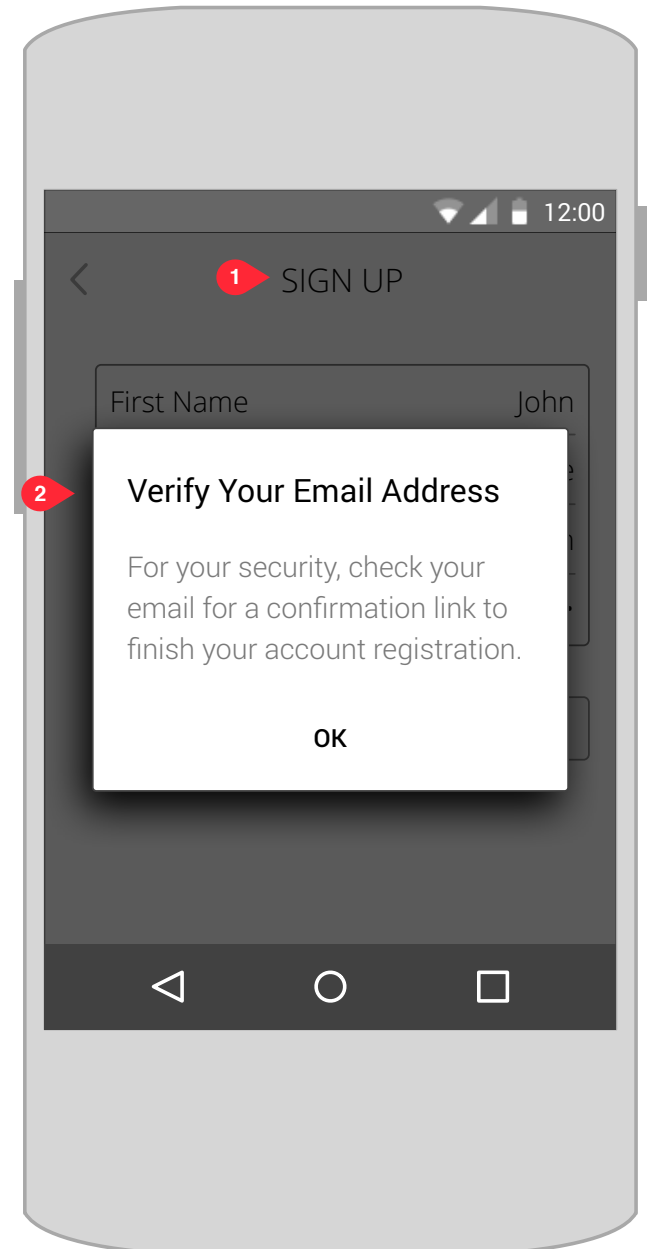

**2**

### All Alerts Should Appear in Android OS's Style

## iOS Design

## Android Design

[2.0 to 2.2] ANDROID  
Sesame Control Pages

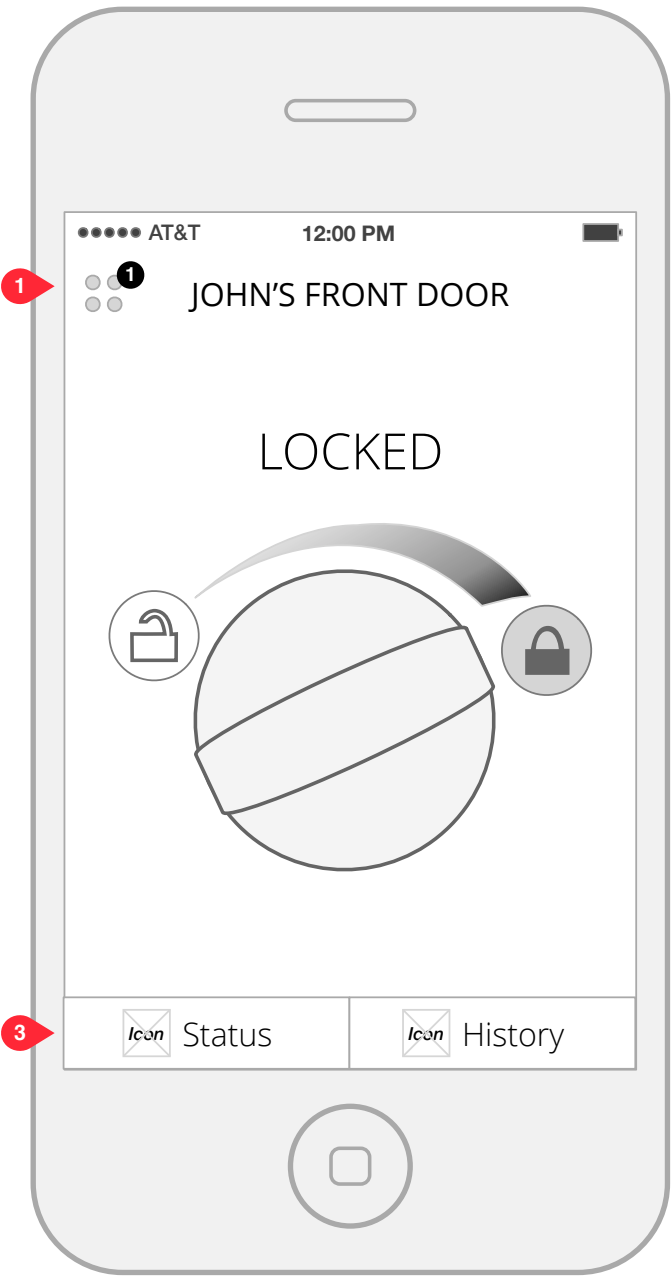

**1**  
Title Left Aligned WITHOUT App Logo

**2**  
Action Overflow Added  
‘Settings’ is moved from [5.0] *Sesame Selection* to the action overflow menu. ‘Log Out’ is also moved from [6.0] *Account Settings* to the action overflow menu.

Any future “About”, “Help”, and “Support” sections should appear here. If the user profile is expanded substantially, it should also have its own navigation option here.

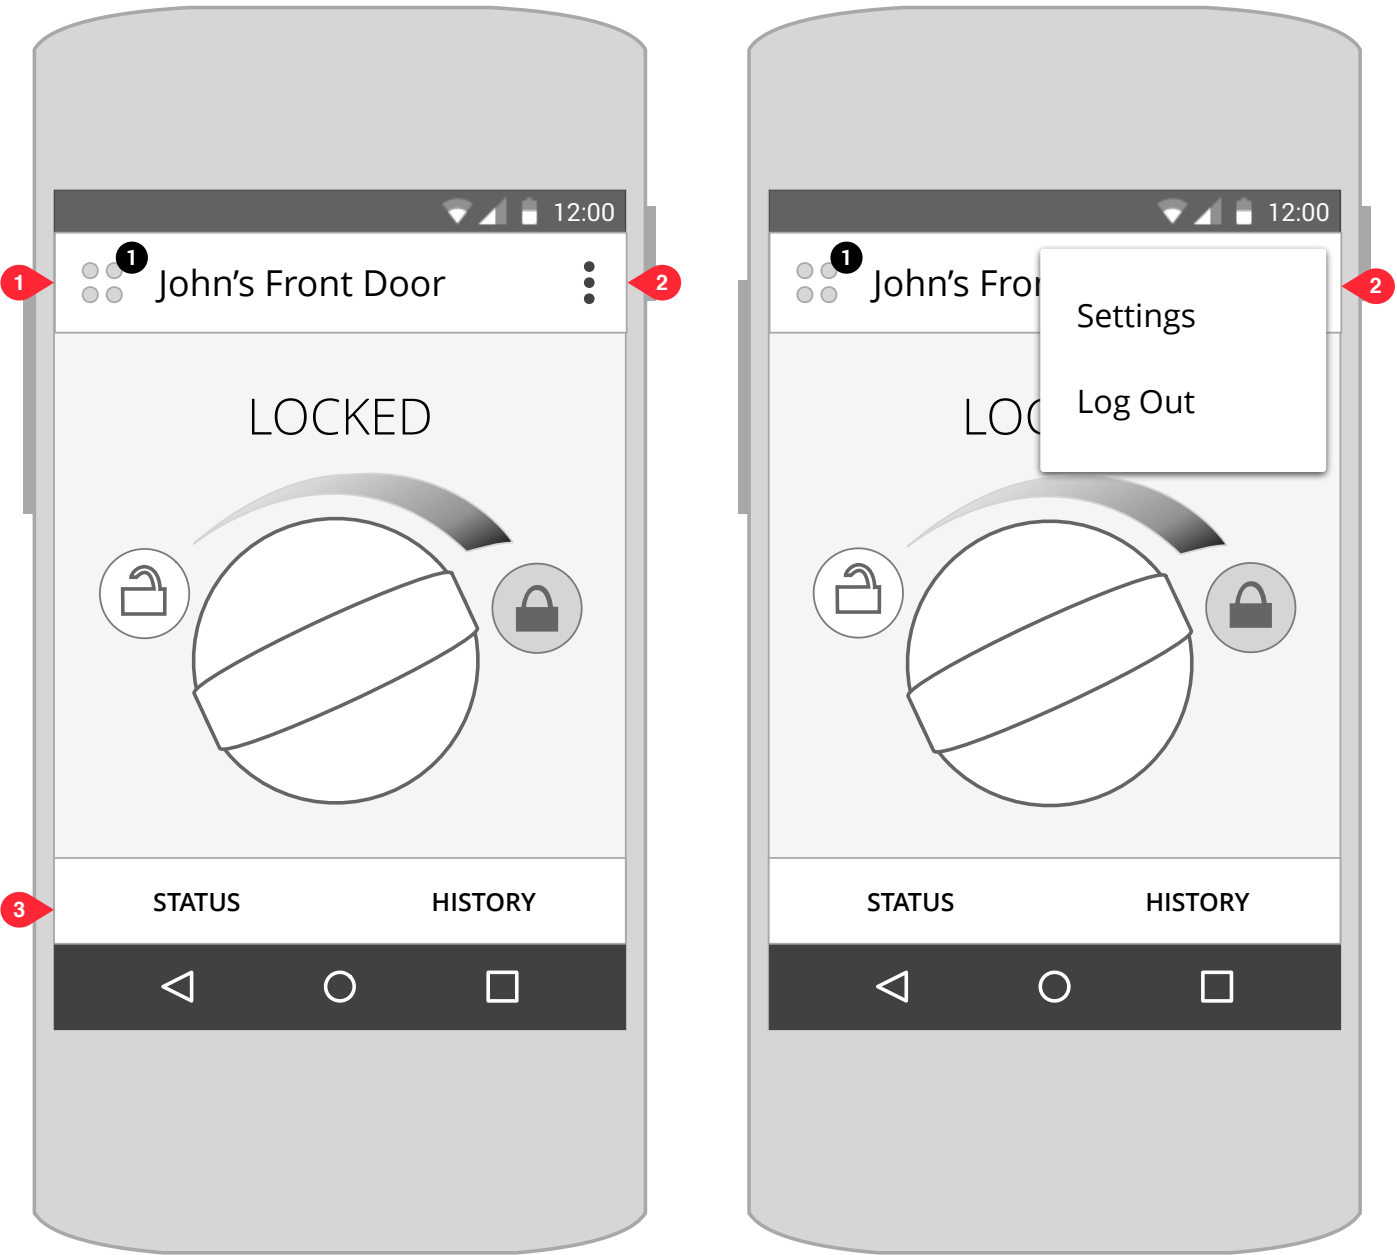

**3**  
Visualization of Tabs Is Altered  
Should be all-caps without icons and line dividers.

iOS Design

Android Design

Minimum ‘Normal’ Size Screen (470dp x 320dp)

[4.0] ANDROID Sesame  
History Pages

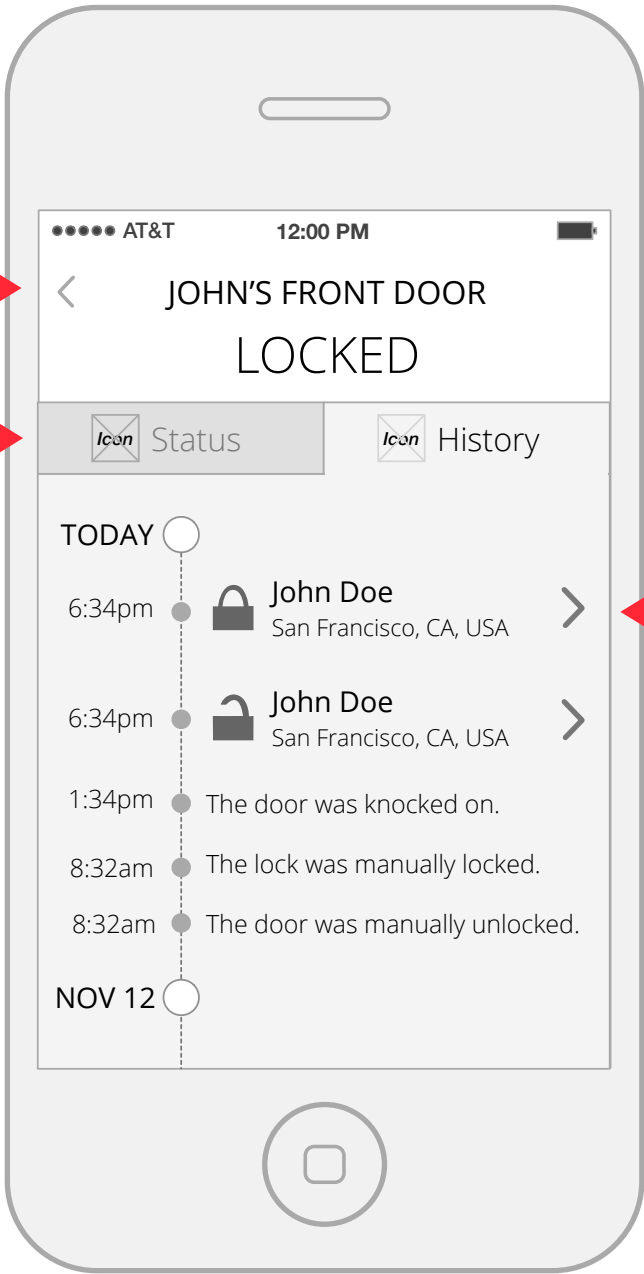

1  
Title Left Aligned and Shows Current  
Locked/Unlocked Status

2  
Use of Android’s Tab Styling

3  
Line Item Carrots Are Removed  
Interactive line items here should have  
more white space than iOS, following  
Android’s line item height guidelines.

4  
Swipe Content to Go Between Tabs  
On Android, swiping the content area  
left or right can switch between the  
Status and History tabs.
