

USER FLOW 01 // Sharing to someone first time

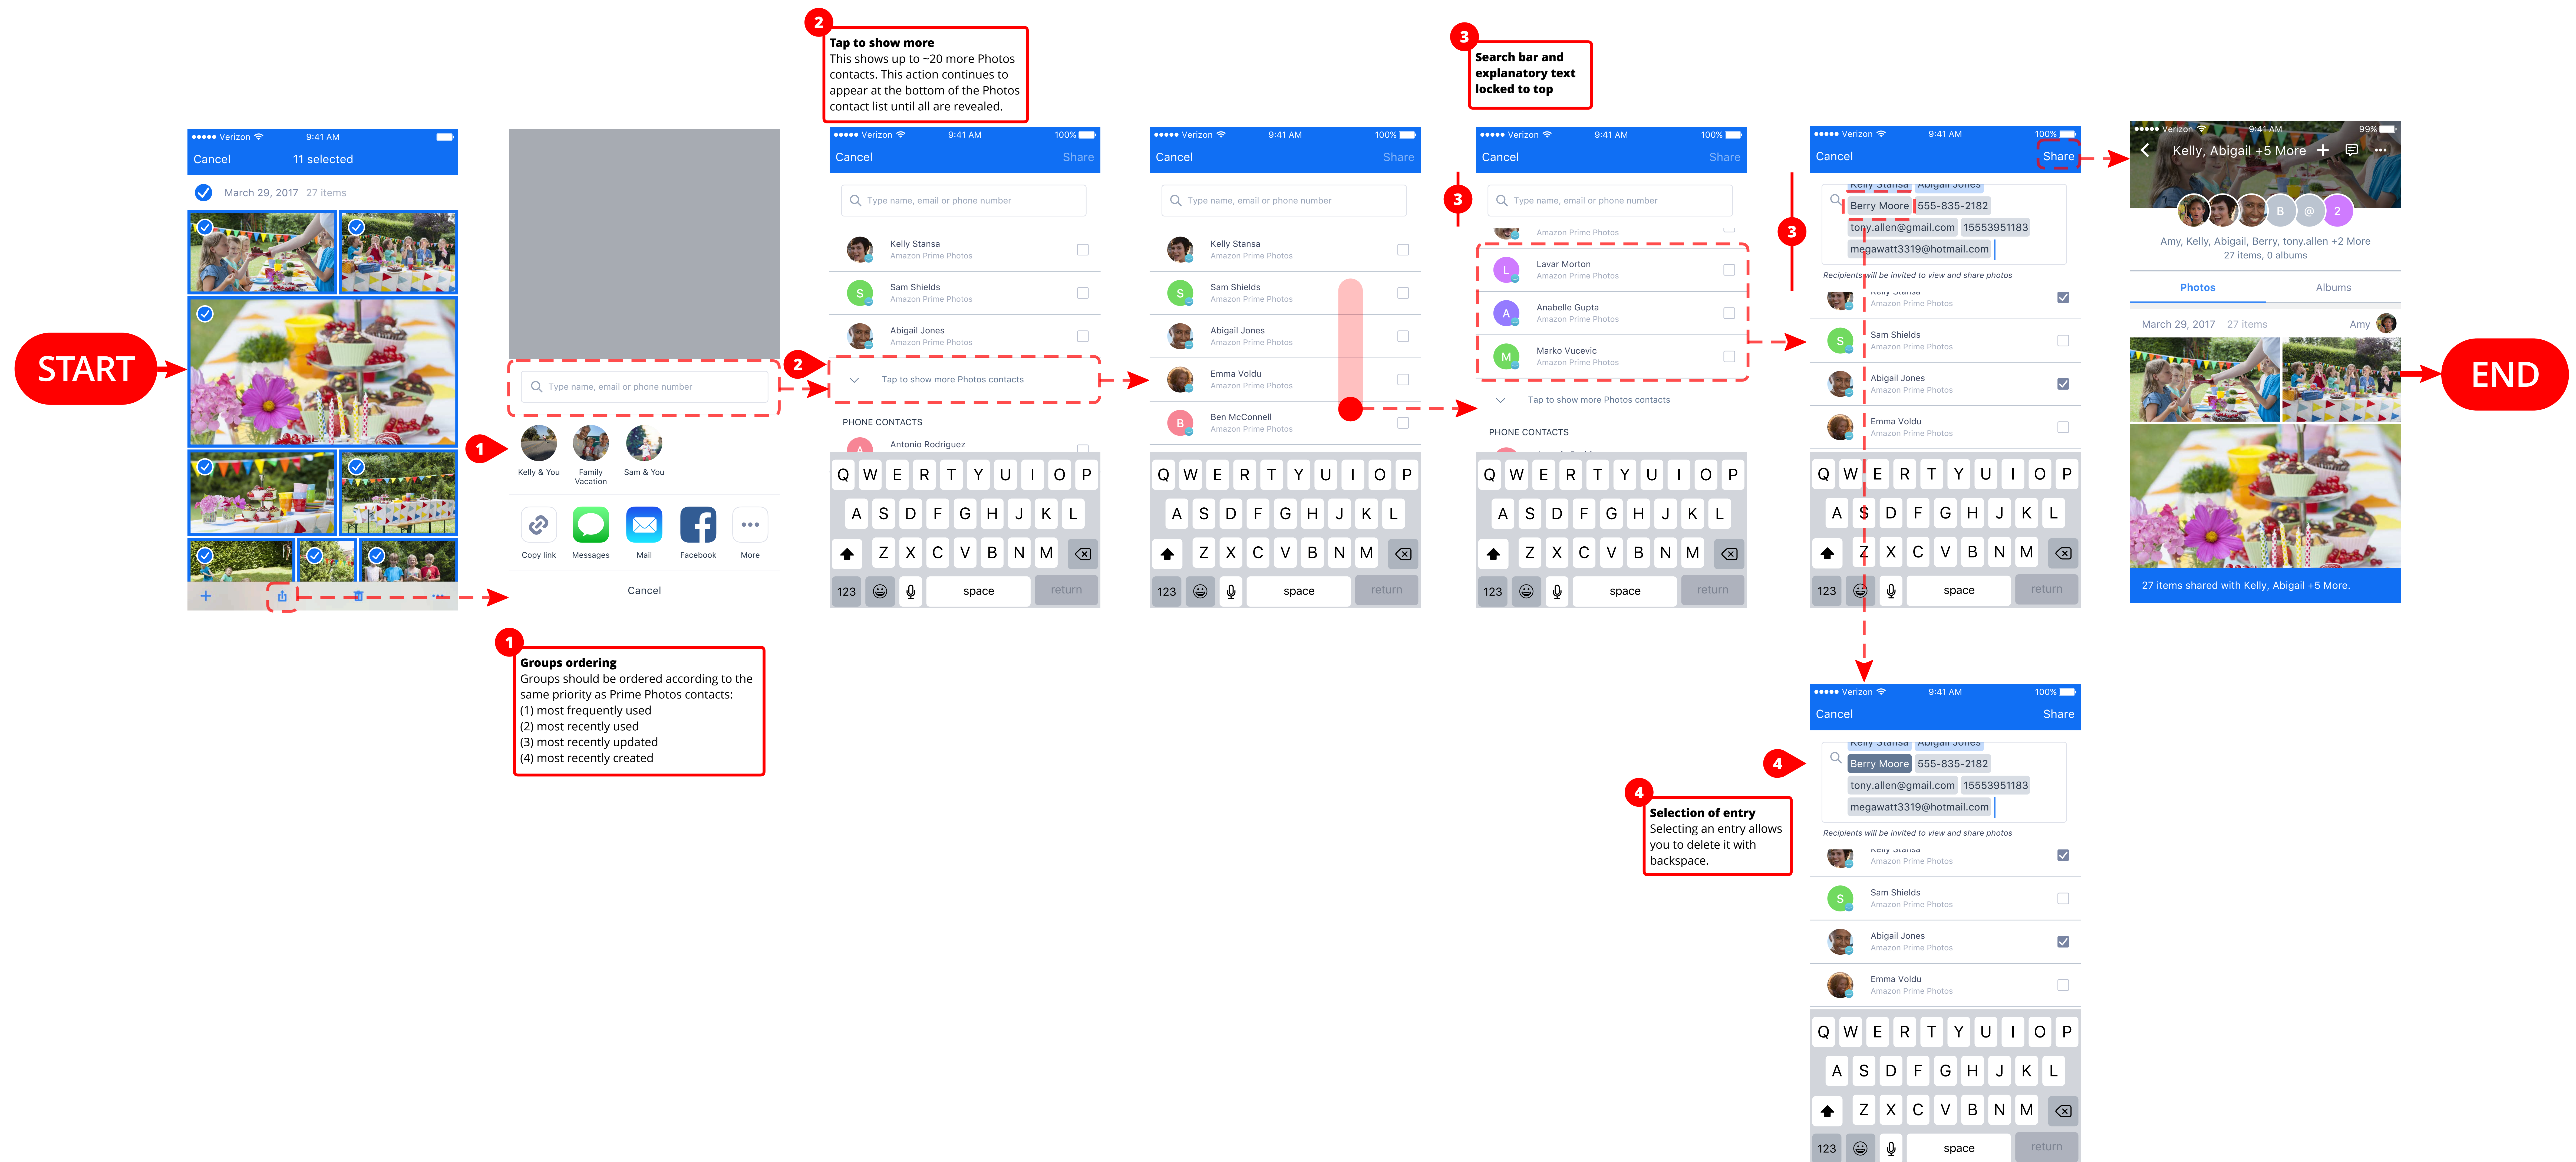

Amy has photos she wants to share from Prime Photos. She's not familiar with Groups and wants to share photos with her friend Kelly, a non-Prime Photos user.

USER FLOW 02 // Sharing to someone additional times

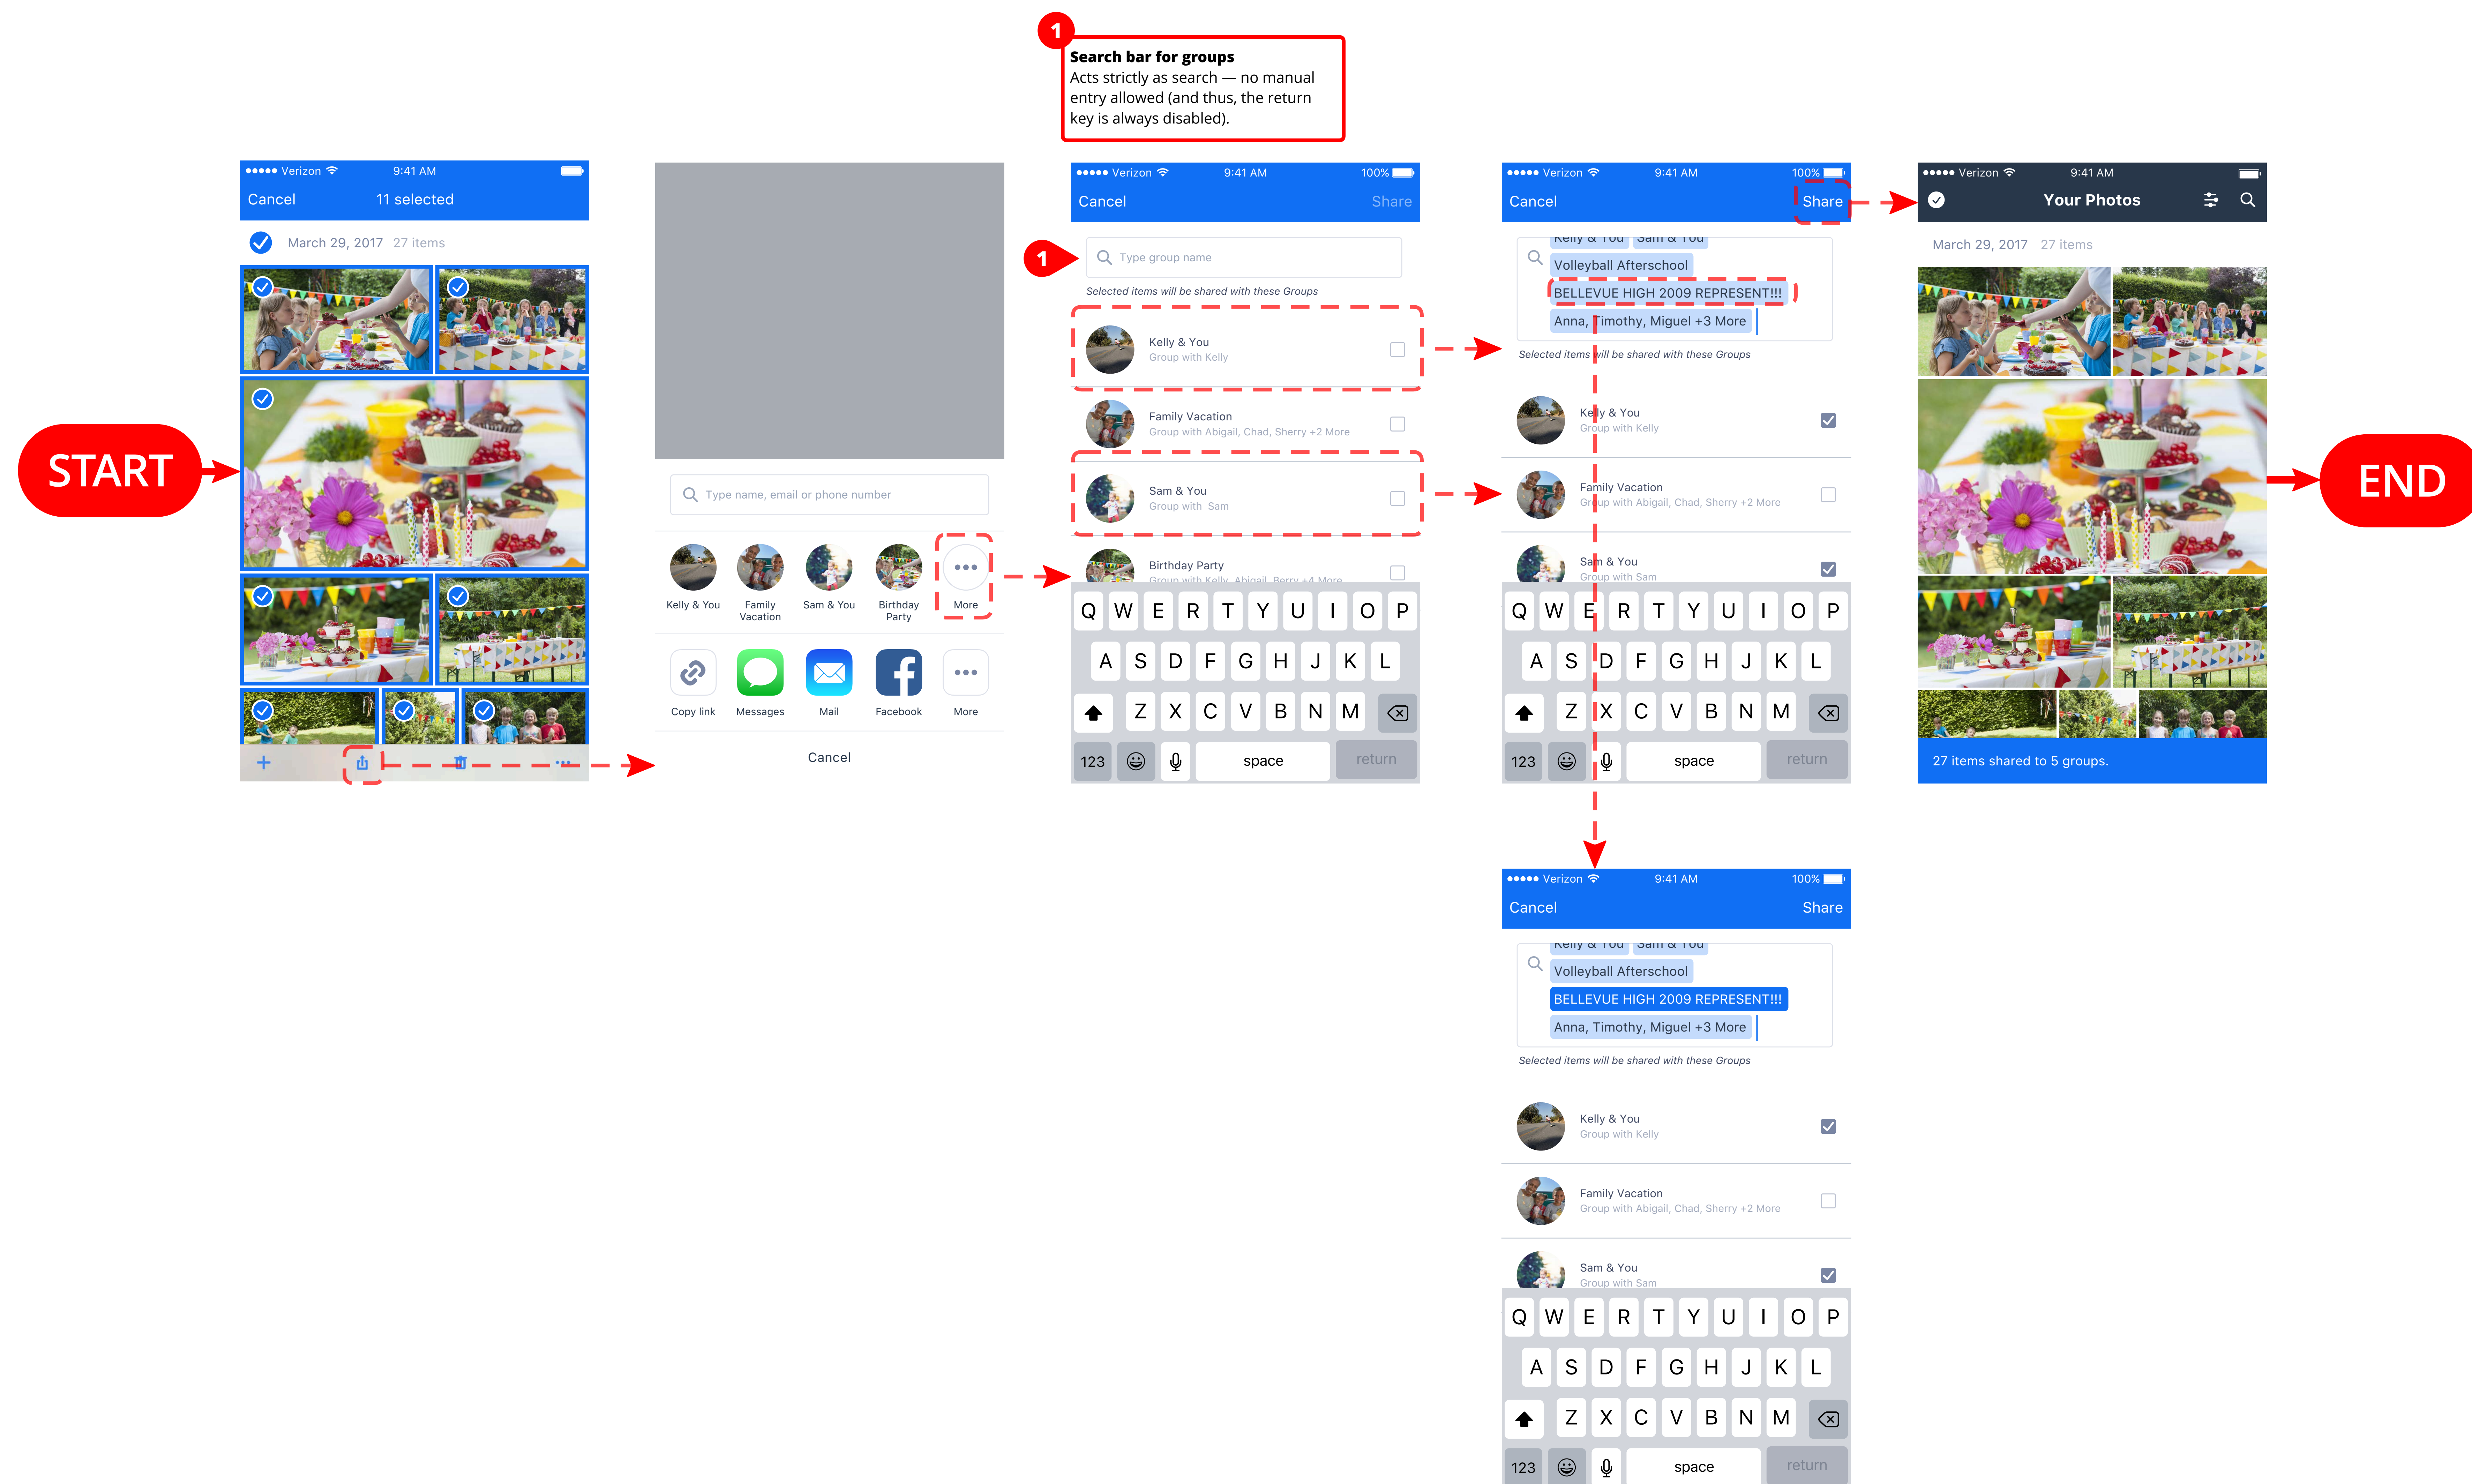

Amy wants to send Kelly (who has now joined) more photos. She's going to follow the same method she used before.

USER FLOW 03 // Sharing to multiple contacts

Later, after having created a few groups, Amy went to a birthday party with some family and friends and wants to share photos with all of them. Some are in existing groups, though some may not have Prime Photos.

USER FLOW 04 // Sharing to multiple groups

Later on, Amy wants to share the same birthday photos to multiple groups.
